Our Mission

CDS fulfills its mission by offering a wide variety of programs to the community. Most programs fall into one of three areas:

Youth Shelters * Counseling * Prevention

Youth Shelters

Through its **Interface Youth Program**, CDS operates three shelters for youth who have

runaway (or threaten to), are truant, ungovernable, or simply do not follow directions. Sometimes it is necessary for parents and children to have a break from each other. This “time out” can allow everyone a chance to calm down and gain perspective. Interface is a **short-term youth shelter for children ages 10 to 17**. Interface provides shelter, a safe environment, food, clothing and counseling to each child. Services are available 24 hours a day. The Shelters are located in Gainesville, Lake City and Palatka and serve CDS’s entire, eleven-county area.

CDS also coordinates the **Safe Place** program in North Central Florida.

Safe Place is a national network of businesses and other community locations where youth can get immediate help for a variety of issues. Locations display the Safe Place logo, and staff are trained to contact our youth shelters, or other suitable services to provide immediate help for youth in crisis.

Counseling

CDS offers short-term specialized counseling services focused on youth in crisis and families struggling with youth with behavioral issues.

Prevention

CDS administers and supports a wide variety of prevention programs to educate the community and stop potential problems before they get out of control. These programs focus on substance abuse, underachieving, and high-risk populations.

Drug Free Community Coalition Partners:

CDS is active in the Alachua County Health Promotion and Wellness Coalition (HPW Coalition) and the Levy County Prevention Coalition. Through the use of community wide needs assessments, public education and resource development the Coalitions are dedicated to addressing issues such as underage drinking and changing social norms that put young people at risk for engaging in dangerous and unhealthy activities.

Evidence Based Prevention Programs:

CDS currently offers three programs scientifically proven to reduce risk factors and build protective factors in elementary and middle school youth.

Independent Living Program:

Working to improve the transition into adulthood for children in Foster Care by teaching valuable life skills and helping young adults who have aged out of Foster Care pursue educational and career goals.

Reichert House:

Provides African American middle and high school males from high-risk neighborhoods with supervised after-school activities.

Resource Library:

A source of free educational materials dealing with substance abuse, prevention, and youth issues.
